EDUCATION

Toulouse INP - ENSEEIHT — *Toulouse, France* 2025 – 2028

*Master's-level engineering degree in Computer Science & Telecommunications — **Telecommunications track***

- **Year 2 (current):** Internet and network interconnection, Local area and telecom networks, Graph theory, Digital communications (frequency-selective channels, OFDM), Channel coding.
- **Year 1:** Network architecture & protocols (TCP/IP), Unix operating systems, Routing, Signal processing, Object-oriented programming.
- **Managership option:** Project management (Agile / Scrum), leadership and organisational management.

Classes préparatoires PCSI / PSI* — *Le Mans & Tours, France* 2022 – 2025

- Intensive programme preparing for the French engineering school entrance exams: mathematics, physics, engineering sciences, algorithms (Python / SQL).

ENGINEERING PROJECTS

ISP network infrastructure and services [Linux, Quagga, Wireshark] 2026

- Designed an IP addressing plan (VLSM/CIDR) and interconnected several local networks.
- Configured dynamic routing (**RIP/OSPF**), NAT gateways and Web/DNS servers; analysed traffic with **Wireshark**.

Unix command interpreter (mini-shell) [C, Linux, POSIX] 2026

- Wrote an interactive shell under **Linux** with process management (`fork`, `exec`).
- Implemented pipes (`pipe`) and input/output redirection; checked memory use with **Valgrind**.

Research project: modelling a ship propulsion system [Python, SolidWorks, Test bench] 2024 – 2025

- Modelled a ducted propeller (Kort nozzle) and wrote a numerical simulation in **Python**.
- 3D design (SolidWorks) and 3D printing, then compared the model with measurements on a test bench.

EXPERIENCE & COMMITMENTS

Operational reservist, French Army — *1st Parachute Chasseur Regiment (1er RCP)* 2026 – present

- Basic military training: endurance, discipline, working in tough conditions and as part of a team (military preparation course completed in 2021–2022).

Scout troop leader 2025 – present

- Lead a troop of about twelve young people aged 12 to 17.
- Handle logistics, supplies and budget for outings and camps run independently.

SKILLS & INTERESTS

Networks & Systems:	TCP/IP, static/dynamic routing (RIP, OSPF), NAT, DNS, Linux/Unix, Bash, Wireshark, Docker, Git.
Programming:	C, Python, Java, Ada, SQL, Matlab.
Methods:	Project management (Agile, Scrum), risk management, team logistics.
Languages & Certificates:	**French:** native • **English:** B2 / professional • **Spanish:** basic • **First aid (PSC1)** • **PIX** (digital skills)
Interests:	Trumpet, harmonica • Running, road cycling • Gardening.
